## COVID-19 School Operations Plan

*August 18, 2022*

The below guidance is based on the Centers for Disease Control & Prevention's "[Guidance for COVID-19 Prevention in K-12 Schools](#)" and Kentucky Public Health's "[Guidance for K-12 School Operations for In-Person Learning](#)". It is subject to change as CDC and KPH guidance is updated.

### **Masks**

Face masks are optional for all staff, students, and visitors while indoors at the school campus. If more than 10% of the staff and students within the school are quarantined or in isolation due to COVID-19, universal masking will be reinstated.

### **Physical Distancing**

If more than 10% of the staff and students within the school are quarantined or in isolation due to COVID-19, to the greatest extent possible, physical distancing of at least 3 feet will be in place indoors.

### **Isolation**

We ask that parents keep their children home if they display any of the following symptoms:

- Fever or feeling feverish (e.g., chills, sweating)
- New cough
- Difficulty breathing
- Sore throat
- Muscle aches or body aches
- Vomiting or diarrhea
- New loss of taste or smell

Students displaying any of the above symptoms at school will be isolated, tested (with parent permission), and/or sent home.

### **COVID Positive Individuals & Close Contacts**

All staff and students, regardless of vaccination status, who test positive for COVID-19 will be expected to isolate for a minimum of 5 days. After the 5<sup>th</sup> day, isolated staff and students who are not showing symptoms of COVID-19 may return school. They will be expected to wear a face mask through day 10.

Days 0-5: Isolation at Home

Days 6-10: Wear a Face Mask

When staff and students are identified as close contacts to a positive COVID-19 case, they are expected to wear a face mask or test for 10 days after their last exposure.

## **COVID-19 Testing**

Staff and students participating in the test-to-stay program (as outlined above) will report directly to the school nurse's office after arriving at the school campus. The nurse will administer a rapid test. Staff and students testing negative will then go about their school day as usual. Those testing positive will be sent home immediately.

## **Cleaning & Disinfection**

The district will continue a rigorous cleaning and disinfection regiment, including frequent disinfection of high touch surfaces.
